

FHR I-10/410 PIPELINE RELOCATION

BURNS & MCDONNELL

LOCATION: San Antonio, TX

The Flint Hills Resource (i just removed the comma) I-10/410 Pipeline Relocation project consisted of the installation of approximately 4,100 feet of 16-inch steel pipeline in a common corridor with CITGO's 6-inch steel pipeline, installation of approximately 2,000 feet of 8-inch steel pipeline under IH-10 main lanes by horizontal directional drill and installation of approximately 800 feet of 8-inch steel pipeline parallel to IH410 northbound frontage lanes by horizontal direction drill. Additionally, PFS removed the existing 8" and 16" Piping from the TXDOT corridor.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Acquired by Primoris Services Corporation in 2012, Primoris Field Services is a non-union pipeline construction company offering a wide range of services throughout the Southern United States. Primoris Field Services provides small day to day maintenance projects, roustabout services, along with new construction projects, and is based out of Beaumont, Texas, with additional offices throughout the state of Texas.
