

ENDEAVOR CONNECTION

CENTURION PIPELINE

LOCATION:

Midland, TX

The Centurion Pipeline Endeavor Bankhead and Interstate Connection project consisted of installing five miles of a new 8-inch pipeline from a connection to two Endeavor Centralized Tank Batteries (CTB); the Interstate CTB and the Bankhead CTB, to Arrington Station. Included in the scope of work were four surface sites and stations associated with the pipeline. Interstate Station is a new 30' x 50' site within Endeavor's CTB where the 6-inch pipeline launcher will be located. Upstream of the launcher will be piping connected to the Endeavor LACT unit. Bankhead Station is a new 30' x 50' site within Endeavor's CTB where the 8-inch pipeline launcher is located. Similarly, upstream of the launcher is a connection to the Endeavor LACT unit. The Bankhead – Interstate Tie-In will be a 50' x 50' site that will hold the 6-inch pipeline receiver and serves as the tie-in location into the 8-inch line. Finally, the 8-inch pipeline receiver is located at Centurion's existing Mascot station. In addition, PFS completed all site development including grading, drainage, and fence installation.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Acquired by Primoris Services Corporation in 2012, Primoris Field Services is a non-union pipeline construction company offering a wide range of services throughout the Southern United States. Primoris Field Services provides small day to day maintenance projects, roustabout services, along with new construction projects, and is based out of Beaumont, Texas, with additional offices throughout the state of Texas.
