

LOCATION:

Bozeman, MT

This project consisted of a single microtunnel drive of 696 linear feet of 64-inch diameter x 0.75-inch wall Trinity Products Tri-Loc Weldless Steel Casing. The microtunnel was installed under two frontage roads, an active railroad and four lanes of Interstate 90 progressing through silts, sands, gravels, cobbles and boulders beneath the groundwater table.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

Vadnais Trenchless Services, Inc. (VTS) is a general engineering contractor that has been operating for over 60 years. We specialize in microtunneling, shoring, and deep concrete caissons and also perform other trenchless services such as earth pressure balance (EPB) tunneling, pilot tube microtunneling and auger boring. VTS prides ourselves in being able to provide the required expertise, equipment and commitment to meet our client's needs.
