

NAVAL STATION GUANTANAMO BAY LNG FACILITY

GUANTANAMO BAY

LOCATION:

Guantanamo Bay

OnQuest is currently working on the Naval Station Guantanamo Bay LNG Facility project. Scope of work includes procurement of four large bullet LNG storage tanks each with a capacity of 265,000 gallons, an LNG off-loading system, a 1,000' sub-sea pipeline, and LNG regasification system to supply natural gas to the Navy's new power plant. Various additional improvements have been recommended by OnQuest including the planned addition of Boil-Off Gas compressors and a flare, as well as other process improvements identified by OnQuest.

Founded in 1960, Primoris Services Corporation (Primoris) is the parent company of an array of vastly diversified infrastructure construction and engineering firms uniquely positioned to bid, design, innovate, build, and deliver in diverse end markets. Through its subsidiaries, Primoris provides a wide range of construction, fabrication, maintenance, and engineering services to major public utilities, petrochemical and energy companies, and municipalities. At Primoris, the health and safety of our employees is our top priority. Primoris is headquartered in Dallas and is a publicly traded company on NASDAQ under: PRIM.

OnQuest, a subsidiary of Primoris, is a full-service engineering company and quickly became an industry leader in the areas of process plant engineering, applied combustion technology, and fired equipment supply. OnQuest expanded its capabilities and global reach through the acquisition of Born Canada in 2005. We specialize in lump-sum, turnkey supply of small-scale processing plants including LNG, Hydrogen Reforming, and Waste to Energy applications. OnQuest is headquartered in San Dimas, CA, and has other offices in the U.S. and Canada.
